

Introduction to the APICS Lean Enterprise Workshop Webinar

Don't continue to be intimidated by LEAN acronyms and LEAN terminology. As more organizations go lean, the demand for skilled workers and a system-wide approach for developing and implementing lean project plans is escalating. This course is designed to equip you with the knowledge and tools to map the path to lean culture at your organization. In this brief webinar Mike Letson will discuss course objectives and provide a general outline of how the course is organized so you can determine the benefits of this workshop for your organization. He will also help you decide who from your organization will benefit the most from the LEAN Enterprise Workshop.
